Message du Directeur General

Une intrusion par bourrage d'identifiants (13-14 fév. 2023) atteint un environnement de préproduction contenant de la télémétrie client. Le confinement impose plusieurs jours de dégradation ; les conséquences sur l'attrition client et le chiffre d'affaires se matérialisent sur les deux trimestres suivants.

Reconstruction zero-trust, programme ISO 27001, tests d'intrusion indépendants et campagne de reconquête de la confiance ; les coûts restent élevés pendant que la confiance revient.

Sur l'exercice, le chiffre d'affaires consolide s'établit à USD 8.39M, pour une marge brute de 53.3% et un EBITDA de USD -149.3k. L'ARR de sortie atteint USD 7.15M auprès de 119 clients actifs, avec un effectif de 142 collaborateurs. L'indice de sante d'entreprise en fin d'exercice ressort à 68.4/100 (Stable).

Facteurs de risque

- Concentration geographique au Sahel : instabilite politique et fermetures de corridors peuvent retarder le materiel importe et la mobilite des equipes.
- Dependance energetique : la fiabilite du reseau conditionne les couts de groupes electrogenes et les emissions de Scope 1.
- Risque de change : les revenus sont libelles en USD et EUR, les charges majoritairement en XOF (parite fixe EUR a 655,957).
- Cybersecurite : l'incident de fevrier 2023 a demontre l'impact en cascade d'une intrusion sur la retention client et la tresorerie.
- Penurie de competences : la concurrence regionale et internationale sur les profils IA maintient une pression sur la remuneration et l'attrition.

Perspectives

Mise en service d'un centre de données Tier III : CAPEX lourd et matériel importé alourdissent l'endettement et réduisent l'autonomie de trésorerie, mais débloquent des revenus d'hébergement souverain.
